# Discussion

- Summary
- Alternative analyses
- Additional data
- Additional research questions
- ...

# Summary

One paragraph summary of current study. One sentence per

- Research question
- Data
- Results

# Alternative analyses

What other analyses could have been done?

- Interactions
- Different model

## Additional data

What would help the current analysis?

- More data (always)
- Additional independent variables
- Better (?) dependent variable

## Additional research questions

What additional research questions would you like to have answered?

- Adjusting for additional independent variables
- Different effect of independent variables depending on other independent variables (interaction)
- Different dependent variable

# Anything else?
